DATA ANALYSIS HELP FOR RESEARCHERS

FRUSTRATED BY FORMATTING YOUR DATA FOR ANALYSIS?

🧠 Overwhelmed by a giant spreadsheet or multiple spreadsheets?

🧠 Frustrated by reformatting collected data for use in an analysis program?

WONDERING HOW TO START YOUR DATA ANALYSIS?

🧠 Overwhelmed by multi-level data, multivariate data or the volume of data?

🧠 Confused about which statistical tests and plots are best for your project?

DO YOU WANT MORE FROM YOUR DATA ANALYSIS?

🧠 Underwhelmed by your data visualizations?

🧠 Overwhelmed by advanced statistical analyses and data modeling?

🧠 Unsure how to take your data analysis to the next level?

READY FOR THE SOLUTION TO YOUR ANALYSIS CHALLENGES?

My name is Gail and I will guide you through all your data visualization and analysis challenges. I have a PhD and 25+ years of neuroscience research and data analysis experience. If you are overwhelmed or just a little stymied by data analysis, I know exactly how you feel, and I can help you.

✓ I am proficient in R/Bioconductor and R/Shiny programming, statistics, data visualization, machine learning, and data modeling for scientific research.

✓ I have worked with histological, neural activity, biochemical, behavioral, gene expression, time series and Likert scale survey data.
